Multiconsult

CEO comments

In the third quarter Multiconsult delivered a quarter with strong growth, and the demand for our services still remains robust, as evidenced by strong sales and a record high order backlog. I am grateful to our skilled and dedicated employees for their contribution, and this quarter would like to extend a warm welcome to all new team members, whether it is in Iterio, LINK Arkitektur, A-lab, Multiconsult Polska or Multiconsult Norge. The increase in net operating revenues is mainly driven by increased capacity and higher billing rates, and the underlying organic growth is strong. The EBITA for the quarter amounted to NOK 29.2 million and is affected by one less calendar day compared to third quarter last year, reflecting an EBITA margin of 3.0 per cent (8.8 per cent YTD). The result in the quarter is impacted by a significant increase in number of employees and an unsatisfactory low billing ratio.

We can look back at another quarter with strong organic growth, continuing the momentum we have maintained so far in 2023. Despite strong sales and an all-time high order backlog, the quarter is characterised by an unsatisfactory low billing ratio of 67.8 per cent. During the quarter we welcomed 225 new employees to the Multiconsult group confirming our standing as a preferred employer and our commitment to invest in the future and organic growth. Among our new employees a large number are recent graduates. The onboarding and training of new hires and in particular recent graduates affects the billing ratio in the short term. The investment in graduates is paramount for further growth and future value creation. Our all-time high order backlog and sales positions us well to win projects in areas of growth and maintain our strong market position.

Close monitoring of clients, markets and upcoming project pipeline has proven to be a key factor contributing to the strong sales we have achieved this quarter and throughout 2023. In an increasingly uncertain market, having a deep understanding of market dynamics becomes even more important. It is through systematic market insight we have positioned ourselves favourably to win numerous large public projects, as well as the most technical demanding projects for our private clients.

In 2015 Multiconsult ASA was listed at the Oslo stock exchange, and today our employee's ownership share is around 18.0 per cent. At Multiconsult we have always encouraged employees to be co-owners and every year offered an annual share purchase programme for our employees. We see the value in co-ownership among employees through many positive aspects for all stakeholders and we strongly believe that co-ownership strengthens the ties between employees and the affiliation to the company

as it increases the general interest in the company's total financial results, growth, and operational performance. To encourage even more of our employees to seize the opportunity to become co-owners we are excited to announce that in connection with this year's share programme we will also offer a small number of complimentary shares, to all our valued employees. In addition, we will enhance communication and training about the share programme. This offers an excellent opportunity for all employees to participate in the value creation they so strongly contribute to.

We still experience great demand for our services, even though the market situation varies geographically and between our business areas. We are pleased to report solid order intake during the quarter and further strengthening of our robust and diversified order backlog to NOK 5.1 billion, an increase of 3.1 per cent from the second quarter and 48.8 per cent compared to the end of third quarter last year. Entering a more demanding and mixed marked situation we are mobilising the organisation to ensure a high level of alertness in our marked activities and preparedness for necessary changes to maintain our level of value creation. Where the demand within markets like transportation, energy and industry, as well as energy efficiency, remains strong, some parts of the building and property sectors have slowed down. The strength of our flexible business model allows us to shift resources to areas of growth, positions us well to win projects in these growing markets while maintaining our position in stable markets.

Grethe Bergly
CEO of Multiconsult ASA

Third quarter 2023

The robust organic revenue growth observed throughout 2023 has continued in the third quarter and is 8.4 per cent. Increased activity throughout the quarter resulted in a growth in net operating revenues of 11.5 per cent to NOK 977.0 million. A solid order intake has resulted in a robust and diversified order backlog going forward. In the comparable quarter last year, the result was impacted by an income recognition from an insurance settlement of NOK 13.6 million. Multiconsult's third quarter EBITA amounted to NOK 29.2 million, which gives an EBITA for the first nine months of 2023 of NOK 301.1 million. The EBITA margin for the quarter was 3.0 per cent, and 8.8 per cent year to date. The billing ratio came in at 67.8 per cent, influenced by investment in the onboarding and training of new hires and recent graduates.

Financial review

Multiconsult group ("Multiconsult" or "the group") comprises Multiconsult ASA ("parent company" or "company") and all subsidiaries and associated companies. Comparable text, and figures in brackets reflect the same period prior year or relevant balance sheet date in 2022.

Group results

Third quarter 2023 Multiconsult group

Net operating revenues amounted to NOK 977.0 million (876.0), an increase of 11.5 per cent compared to the same quarter last year. The organic revenue growth amounted to 8.4 per cent adjusted for calendar effect and acquisition. The increase in net operating revenues was mainly driven by higher capacity, reflected by an increase in full-time equivalents (FTE) by 8.7 per cent. Additionally, higher billing rates made positive contribution to the growth in net operating revenues. The growth in net operating revenues was offset by lower billing ratio of 0.5pp, which came in at 67.8 per cent (68.3). In the comparable quarter last year net operating revenues was impacted by an income recognition from an insurance settlement of NOK 13.6 million.

Operating expenses consist of employee benefit expenses and other operating expenses. Operating expenses increased by 17.5 per cent to NOK 889.8 million (757.3) compared to the same quarter in 2022. Employee benefit expenses increased by 18.3 per cent due to ordinary salary adjustment, increased manning level from acquisitions and significant increase in net recruitment. Other operating expenses increased to NOK 137.4 million (121.6), an increase of 13.0 per cent mainly due to higher office expenditure including office expenses from acquired companies, cost related to a higher manning level, IT-cost and cost increase in general.

Net cash flow from financing activities amounted to negative NOK 50.6 million (negative NOK 266.8 million) which was affected by paid dividend, drawdown on the revolving credit facility of NOK 400.0 million, instalments on lease liabilities and purchase of treasury shares.

In the quarter, a new cohort of the senior leadership programme within the group was initiated with participants from all major subsidiaries. The programme consists of four modules and will be completed towards the end of 2024.

Adjustments were made in the executive management team. Kristin O. Augestad became the new Executive Vice President for Architecture, Leif Olav Bogen assumed the role of Executive Vice President for the Region Oslo segment, and Kari Sveva Dowsett joined the executive management team as Executive Vice President for the Region Norway segment. She has been employed by Multiconsult since 2010 and has served as leader of the business area Mobility & Transportation and as the director of business unit West in the segment Region Norway. Kirsten Anker Sørensen, Executive Vice President for Architecture is, at her own request, transferring to another role in the group. These changes took effect from 1 October 2023.

Markets, order intake and backlog

Third quarter 2023

The size and timing of execution of the order backlog varies significantly between the business areas and locations. The order backlog does not reflect the total expected volume related to frame agreements and includes only call-offs that have been signed under these agreements.

Multiconsult group reports on markets, order intake and backlog through the following four business areas:

- ▲ Buildings & Properties
- ▲ Mobility & Transportation
- ▲ Energy & Industry
- ▲ Water & Environment

The total consolidated order intake in the quarter amounted to NOK 1 349 million (945), an increase of 42.7 per cent y-o-y. The order backlog is high, and with a diversified portfolio distributed among all business areas. At the end of the third quarter the order backlog was NOK 5 094 million (4 943, Jun 2023), an increase of 3.0 per cent compared to the second quarter 2023 and a growth of 48.8 per cent y-o-y.

Buildings & Properties

Throughout the quarter, the market for our business area Buildings & Properties continued with stable activity. The market has experienced regional differences, with certain areas within the market slowing down due to factors such as high inflation, cost increases, budget cuts, and uncertainty regarding return on investments. These challenges are particularly noticeable in the housing and commercial building sectors, as well as in large public and private projects, where we now experience more postponements of projects. The order backlog was high going into the quarter and has continued at a high level throughout the quarter. Among projects included in the order intake during the quarter were:

- ▲ Forsvarsbygg (ENG: The Norwegian Defence Estates Agency)
- ▲ Midtbygda sykehjem (Nursing home)
- ▲ Museum of the Viking Age

Segments

Multiconsult is organised in four reporting segments, Region Oslo, Region Norway, Architecture and International.

From the second quarter of 2023, and due to the acquisition of A-lab, we introduce the segment Architecture, which incorporates the financial statements from A-lab and LINK Arkitektur. Moreover, as from the fourth quarter 2022, segment Energy was incorporated in Region Oslo and Region Norway to streamline our organisation and optimise

Mobility & Transportation

The market for our business area, Mobility & Transportation, continued at a high and stable level in both Norway, Sweden and Poland. Multiconsult has a strong position with a strong order backlog and large ongoing projects. The Public Private Partnership (PPP) contract for the road project E10 Hålogalandsvegen is progressing steadily with the contract signed and design works in progress. Among projects included in the order intake during the quarter were:

- ▲ E10 Hålogalandsvegen
- ▲ Ytre Steinsund bru
- ▲ Togparkering Hove (ENG: Train parking at Hove)

Energy & Industry

During the quarter, the market related to our business area Energy & Industry continued with high activity. There was stable high demand within projects related to the green shift and increased energy demand. The order backlog was high going into the quarter and has continued at a high level throughout the quarter. Multiconsult has increased capacity towards this market during the quarter. Among projects included in the order intake during the quarter were:

- ▲ Yggdrasil - Power from Shore
- ▲ Malagarasi – Hydropower
- ▲ Snøhvit LNG plant- Power from shore

Water & Environment

During the quarter, the market related to our business area Water & Environment has been stable with a rising demand for water and sewage infrastructure projects. There were some delays in public tender processes, which impacted the introduction of new projects to the market. Focus on sustainability and climate adoption across different sectors opens new markets and increased demand for advisory within natural hazard, restoration of nature and environmental services. Among projects included in the order intake during the quarter were:

- ▲ Water supply to Oslo
- ▲ Vågåmo - Flood protection
- ▲ Hellesylt – water treatment plan

utilisation of our total capability within energy and industry. When presenting the financial reports, the comparison to previous periods is made on the new structure. Please review note 3 - Accounting Policies for further information.

Third quarter 2023 Region Norway

Net operating revenues amounted to NOK 390.7 million (372.0) an increase of 5.0 per cent compared to the same quarter last year. The main driver behind the increase in net operating revenues was higher capacity, reflected in a 9.7 per cent growth in full-time equivalents (FTE). Higher billing rates also contributed to the increase in net operating revenues. The growth in net operating revenues was offset by lower billing ratio which came in at 66.5 per cent (68.7).

Operating expenses amounted to NOK 369.1 million (320.0), an increase of 15.3 per cent. Employee benefit expenses was NOK 272.7 million (236.2), an increase of 15.5 per cent due to ordinary salary adjustment and significant increase in net recruitment. Other operating expenses amounted to NOK 96.4 million (83.8), an increase of 14.9 per cent. The increase in other operating expenses was mainly driven by higher shared service cost and increased expenditure in general related to office expenses compared to the third quarter last year.

Architecture

This segment comprises the architecture firms LINK Arkitektur and A-lab with offices in Norway, Sweden, Denmark and Portugal and offers services in the two business areas: Buildings & Properties and Energy & Industry.

The acquisition of A-lab was successfully completed during the quarter and is included in the financial accounts with effect from 30 June 2023.

Third quarter 2023 Architecture

Net operating revenues amounted to NOK 149.7 million (114.5) an increase of 30.8 per cent compared to the same quarter last year. The increase in net operating revenues reflects higher capacity due to the acquisition of A-lab. Higher billing ratio of 2.4pp contributed positively on net operating revenues growth, the net increase was offset by a lower average billing rates.

Operating expenses increased by 33.8 per cent to NOK 151.5 million (113.2). Employee benefit expenses increased by 36.0 per cent mainly driven by including of employees from A-lab to this segment, and regular salary adjustment. Other operating expenses amounted to NOK 28.7 million (22.9), representing a 25.2 per cent increase. This increase attributed to the inclusion of A-lab, which led to higher office and general costs.

International

This segment comprises the subsidiaries Multiconsult Polska in Poland and Iterio AB in Sweden and offers services mainly in the business area Mobility & Transportation.

Key figures – International

Amounts in NOK million	Q3 2023	Q3 2022	YTD 2023	YTD 2022

Third quarter 2023 International

Net operating revenues amounted to NOK 69.2 million (56.3), an increase of 23.0 per cent compared to the same quarter last year. The main driver behind the increase in net operating revenues was an increase in billing rates and a higher billing ratio that came in at 70.2 per cent (67.3), an increase of 2.3pp. A contributing factor to the increase in net operating revenues was the influence of higher inflation.

Moreover, the growth in net operating revenues measured in NOK surpassed the growth in local currency due to the impact of currency exchange rate translation effects.

Operating expenses amounted to NOK 59.3 million (48.2), 23.1 per cent higher than in the same period last year. Employee

benefit expenses increased by 28.4 per cent influenced by inflation and line with ordinary salary adjustment and net recruitment in the segment. Other operating expenses amounted to NOK 8.8 million, an increase of 0.5 per cent compared to the same quarter last year.

Subsequent events

On 1 October, Multiconsult ASA announced that Aker BP selected Multiconsult as the advisor for civil engineering, consultancy, and supervision services in the Yggdrasil Power from Shore project.

On 11 October, Multiconsult ASA announced that Statnett SF nominated Multiconsult for two new frame agreements regarding further development of the power transmission system in Norway. These frame agreements include

engineering services for sub stations, power cables and lines, as well as owner's engineering services.

On 17 October, Multiconsult ASA announced that Multiconsult was selected as main designer on the road project fv.353 Rugtvedt – Surtebogen. Hæhre Entreprenør AS was nominated as the preferred contractor. The end client for this project is Vestfold and Telemark County, Norway.

Outlook

These forward-looking statements reflect current views about future events and are, by their nature, subject to significant risks and uncertainties because they relate to events and depend on circumstances in the future.

The market outlook for Multiconsult's services is still good but has levelled off. Despite this uncertainty, the market outlook remains favourable. There are substantial differences in the market outlook when it comes to certain geographical areas and our business areas, and Multiconsult mobilise to navigate in a more complex environment. The short term pipeline of upcoming projects remains robust, although there is a slight reduction in general market opportunities. Lower investment levels in certain markets are expected to intensify competition and margin pressures. Nevertheless, with a high volume of ongoing projects, a diverse portfolio and a high order backlog, Multiconsult is well-positioned for the future.

Buildings & Properties

The market outlook for our business area Building & Properties is expected to be diversified. While parts of the market are cooling down, there are positive developments expected in other areas, such as defence projects and energy-saving initiatives, as well as rehabilitation of existing buildings. However, we note that some projects and several of the large public projects that have been announced are being postponed. The general market is currently experiencing a slowdown due to factors such as high inflation, cost increases, budget cuts, and uncertainty regarding return on investments. The Scandinavian architecture market is experiencing a cooling down period marked by a gradual slowdown in new projects. Nevertheless, Multiconsult has observed that several key projects are still progressing.

Mobility & Transportation

The market outlook for our business area Mobility & Transportation is good, and the level of activity is expected

to continue at a high level. In Norway the proposed national budget for 2024 indicate a flat and stable investment level in the transportation sector going forward. The infrastructure market in Sweden is expected to remain stable, with continued uncertainty related to cost increase, on the other hand the investment plan from Trafikverket in Sweden shows significant investments in infrastructure going forward. The market in Poland is stable, with a promising number of opportunities in the pipeline, however there is high uncertainty related to investment decisions due to the recent Polish parliamentary election.

Energy & Industry

The market outlook for our business area Energy & Industry continues a positive path, focusing on the green shift and a market that is addressing increased energy demand. However, some projects face challenges related to lack of available power supply from the main grind. The market related to green hydrogen and ammonia is slowly moving forward with challenges with respect to uncertain return of investments. There is a notable increase in investment projects for sectors like oil and gas, manufacturing, mining, and electricity supply going forward.

Water & Environment

The market outlook for our business area Water & Environment is expected to be good with an increase in the demand for Multiconsult's services. There is a growing demand for various projects, especially in areas related to water, sewage, climate change adaptations, and environmental remediation. Sustainability efforts are driving market expansion and generate a demand for consulting engineering services in new areas.

Multiconsult does not provide forecast.

Risk and uncertainties

Through its business activities, Multiconsult manages a considerable contract portfolio of engineering, architectural and advisory services that is exposed to a wide variety of risk factors. The risk of disagreements and legal disputes related to the possible cost of delays and project errors is always present in the business.

The Risk and risk management section of the Directors report in the 2022 Annual Report contains detailed description and

mitigating actions related to several risk factors, including: project risk, credit risk, currency risk, interest rate risk, liquidity risk, accounting estimates risk, employees and expertise risk, nature and climate risk and Covid-19 risk. In addition, macro-economic development risk and risk related to geopolitical tensions and war in Ukraine.

Multiconsult has not identified any significant additional risk exposures beyond the ones described in the 2022 Annual Report.

Notes to the financial statements

NOTE 1: General information

The company and the group

Multiconsult ASA (the company) is a Norwegian public limited liability company listed on Oslo Stock Exchange. The company and its subsidiaries (together the Multiconsult group/the group) are among the leading suppliers of consultancy and

design services in Norway and the Nordic region. The group has subsidiaries outside the Nordic region - in Poland, United Kingdom, Portugal and Singapore.

NOTE 2: Basis of preparation and statements

Basis for preparation

The financial statements are presented in NOK, rounded to the nearest thousand, unless otherwise stated. As a result of rounding adjustments, the figures in one or more rows or columns included in the financial statements and notes may not add up to the total of that row or column.

full annual financial statements of the group and should be read in conjunction with the consolidated financial statements for 2022. The accounting policies applied are consistent with those applied and described in the consolidated annual financial statements for 2022, which are available upon request from the company's registered office at Nedre Skøyen vei 2, 0276 Oslo and at www.multiconsult-ir.com.

Statements

These interim condensed consolidated financial statements for the third quarter 2023 have been prepared in accordance with IAS 34 as approved by the EU. They have not been audited. They do not include all of the information required for

These interim condensed consolidated financial statements for the third quarter 2023 were approved by the board of directors and the CEO on 1 November 2023.

NOTE 3: Accounting policies

The group prepares its consolidated annual financial statements in accordance with IFRS as adopted by the EU (International Financial Reporting Standards - IFRS). References to IFRS in these financial statements refer to IFRS

as approved by the EU. The accounting policies adopted are consistent with those of the previous financial year, with the exemptions presented below.

NOTE 4: Estimates, judgments and assumptions

The preparation of interim condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing these interim condensed consolidated financial statements, significant judgements made by management in applying the group's accounting policies. The key sources of estimation uncertainty were the same as those applied to the annual consolidated financial statements for the 2022, and described in note 2 in the annual consolidated financial statements.

Impairment test of Goodwill

Cash-generating units are reviewed for impairment when indicators exist. The estimated recoverable amounts are affected by assumptions in connection with the estimation of future cash flows, as well as discount rate for the estimation of the present value of the cash flows. An assessment of impairment indicators has been made on 30 September 2023. No impairment indicators were identified, and thereby a full test is not performed. A full impairment test is scheduled to be performed on 31 December 2023.

NOTE 5: Segments

Starting from the second quarter of 2023, due to the acquired shares in A-lab, segment LINK Arkitektur will incorporate the financial statements from A-lab, and consequently, the segment name has been modified to "Architecture". Moreover, as from the fourth quarter 2022, segment Energy was incorporated in Region Oslo and Region Norway to streamline our organisation and optimise utilisation of our total capability within energy and industry.

Multiconsult will be reporting on four segments, Region Oslo, Region Norway, Architecture and International. When presenting the financial reports from fourth quarter 2022 and onwards, the comparison to previous periods is made on the new structure. To ensure comparability between periods, the previously reported figures for the segment Energy have been transferred to the segments Region Oslo and Region Norway in line with organisational structure.

NOTE 6: Explanatory comments regarding the impact of revenue seasonality on quarterly reporting

The group's net operating revenues are affected by the number of working days within each reporting period while employee expenses are recognised for full calendar days. The number of working days in a month is affected by public holidays and vacations. The timing of public holidays (e.g. Easter) during quarters and whether they fall on weekends

or weekdays impacts revenues, earnings, cash flows and working capital balances. Generally, the company's employees are granted leave during Easter and Christmas. The summer holidays primarily impact the month of July and the third quarter.

NOTE 7: Significant events and transactions

There were no significant events or transactions in the period.

NOTE 8: Treasury shares

The company holds 117 251 treasury shares on 30 September 2023. For a description of the share purchase programme for all the employees and the performance-based bonus scheme

for the group management see note 9 in the consolidated financial statements for 2022.

NOTE 9: Earnings per share

For the periods presented there are no dilutive effects on profits or number of shares.

Basic and diluted earnings per share are therefore the same.
